

IT'S ALWAYS BEST TO BE SAFE

Digital Frontier

16 ZONES SECURITY SYSTEM

DFA5300 16 ZONES

DFA5300 16 ZONES

Digital Frontier All Rights Reserved

16 FULLY PROGRAMMABLE ZONES

Each protected area is fully programmed to operate on individual zone to allow a better coverage of your premises without having to share one zone with two to three protected areas.

2 PARTITION

The area partition allows the control panel to split zones into different area of operation. Each area carries a separate control for its designated functions. The panel operates effectively as two different systems by sharing with one alarm outputs.

BUILT-IN HOME AUTOMATION (4PGM)

The control panel in the system can turn your system on or off with your PIN number and control outputs that activate anything that can be switched on and off (light, electric door, radio, air conditioner and etc.)
